- » City centres, parks and parking lots
- » Remote bus stops
- » Sports grounds
- » Golf courses and ski resorts
- » Beaches and camping sites
- » Open-air recreation areas and hiking routes
- » Industrial estates etc..

Classic, at bus drivers' service

Classic ready for delivery to a main Swedish ski resort.

Classic ready for delivery to remote bus stops in Finland.

### Classic – a necessity that fits in everywhere

Because of its modern ageless design and minimal footprint, Classic can be installed in almost any surroundings.

Should the site conditions change, Classic can easily be moved to another site – thanks to its flexible construction.

Classic is insulated for use all-the-year-around and is available with various options.

Classic is a popular toilet facility in a lots of areas, e.g. at various types of sports events.

Classic also offers a facility much appreciated by bus drivers – especially at remote bus stops.

### Available in two versions

Classic is equipped either with a waste tank for slurry exhaustion or a WC for fresh and waste water connection.

### Waste tank model

Floor and toilet seat in one piece, made of fibre glass reinforced polyester, makes the interior durable and easy to clean. The toilet is also fitted with a fresh water container and a plastic washbasin with tap.

### WC model

The WC model has a water flush ceramic toilet bowl and a plastic washbasin.
